INSTALLATION INSTRUCTIONS:

1. Mount side frames in conveyor frame or chute so that first mounting hole is 4" above the bottom surface of the belt.
2. Mount side frames on auxiliary supports, if used, 10" to 16" above the bottom surface of the belt.
3. Mount the supporting frame to the side frame and slide on the support tube 3/4" into the mounting hole.
4. Place the support tube in the side frame and mark for the two bolts.
5. Bolt the ends of the tube with a 5/8"-11 spiral and belt support tube on place.
6. Adjust up and down for even contact with the belt, but no pressure applied.
7. To lower the vee slot turn the rear 90° and lock using nuts.
8. Use vee will now be adjusted to be even with the contact, at which point it can be turned over and regulated for step 5 through 7.
